

Waste disposal

**Southern
Waste
Solutions**

Southern Waste Solutions plays a unique and crucial role in waste management, operating the only regulated waste facility in Tasmania.

To dispose in the B or C Cell, all customers must hold an account with SWS¹. To apply, please contact us via email info@swstas.com.au.

Please obtain samples of the waste material and submit them for analysis at an accredited laboratory to determine what contaminants are present. Using the results, the [EPA Information Bulletin No.105](#) guidelines will assist you to determine the contamination level of the waste to ensure safe disposal in either our B Cell or C Cell.

B Cell

Low Level Contaminated Waste

For **Level 2** Regulated/Contaminated Waste
Information required for the application:

- Applicant's contact details
- Waste details – Is it flammable?
Is it contaminated?
- Origin of the waste
- How has the waste been stored?

C Cell

Controlled Hazardous Waste

For **Level 3 and above** Regulated/Contaminated
Waste Information required for the application:

- Applicant's contact details
- Transporter details²
- Waste details – including Controlled Waste Category Code³
- Origin of the waste, including tonnage and storage details
- Sampling details
- Laboratory test results

Apply online at
swstas.com.au

A receipt of your application will be emailed within 24 hours or the following business day. If you do not receive it or have queries about your application, please contact SWS via email info@swstas.com.au or by phone (03) 6273 9712.

¹ Please refer to [B Cell Terms of Conditions](#) or [C Cell Terms of Conditions](#) for more information.

² Transporters must hold a Unique Registration Number to move C Cell Waste to our facility. Applications can be made via the [EPA - Controlled Waste Transporter Registration application](#)

³ The Controlled Waste Category Codes can be found online at [EPA Tasmania](#).
